

# Mercedes-Benz HTA-MBHD wheel aligner

This Hunter commercial aligner has been specifically customised for aligning all Mercedes-Benz commercial vehicles and not only meets but exceeds the new equipment requirements needed for alignment servicing in dealer workshops.

### Features:

- 6 wireless sensors for upto 3 axle simultaneous alignment measurement
- Rolling compensation – no jacking required
- Four Light weight mobile low friction turnplates for single or twin steer axles
- 'Quick Check' speculative alignment in 3 minutes
- Has Mercedes-Benz and non Mercedes-Benz vehicle specification data
- EasiPush unique vehicle pusher
- Full colour graphical customer Before & After printouts
- Mobile unit – easily moved from bay to bay and with bay characterisation
